

PRCI Member HVAC OJT Internship

Summary:

CGRC has one HVAC On-the-Job Training Internship available immediately. We are seeking enrolled Chukchansi Members who have completed the educational requirements for a career in HVAC but lack the related work experience for employment in this field. This internship provides interns with hands-on work experience to supplement their completed studies. Interns will work closely with mentors to complete learning and job assignments within their selected role.

Program Features:

- Interns will learn or enhance professional communication skills, team work, guest service, and specific job duties by successfully completing assigned job duties and learning assignments within the scope of the chosen internship track.
- Interns will learn CGRC's policies & procedures regarding HVAC systems, maintenance, and repair.
- Interns will demonstrate knowledge re: EPA, Clean Air Act, Ozone Protection Requirements, and general safety and hazards requirements and procedures.
- Interns will learn CGRC's internal technology systems re: HVAC.
- Interns will gain hands-on experience with all level of HVAC maintenance and repairs.
- Interns work 30-40 hours per week at the Tribal Team Member rate of pay.

Basic Requirements:

- Interns must be willing to commit to working 30-40 hours per week; be able to work a flexible schedule (days, swing, grave, weekends, holidays); and be committed to investing in their career development with CGRC.
- Proof of enrollment with the Picayune Rancheria of Chukchansi Indians required.
- High School diploma or GED required. E.P.A. approved Universal Certification Card required.
